

Andrés Lugo

Computer Engineering Student
Software Developer

ABOUT ME

I'm driven by two great passions: music and technology. As a musician, I like to create, write, play and produce songs across various genres. This creative mindset carries me into my career as a Computer Engineering Student, where I developed deep interest in software development, videogame design, cybersecurity, front-end and back-end development and AI. My goal is to bridge the gap between technical logic and creative innovation, specializing in Machine Learning to build the future of intelligent systems.

Born in 2005

PROFESSIONAL APPROACH

I'm a creative person. I've been passionate about software since childhood; I work efficiently in team environments and contributing with my own ideas to the group, at the same time that I'm good at always giving an innovative point of view to the work. I'm trying every day to learn and create in order to improve my abilities.

SKILLS

- Quick learner with a strong ability to adapt to new technologies
- Engineering and Math: Calculus, Linear Algebra
- Python: Pandas, NumPy, Matplotlib and TensorFlow basics
- JavaScript/TypeScript: HTML/CSS, SASS, Bootstrap
- RESTful API integration and asynchronous programming
- Basic knowledge in React.js (Next.js) and Vue.js
- Ionic / Angular Framework

EDUCATION

- Currently (2026) studying Computer Science in Fermin Toro University. ([enlace](#))
- Fundamentos de la programación, estudiado en la academia CADI F1 (HTML, CSS, GIT y POO). ([enlace](#))
- Programación Front-End Junior en CADI F1 (JS, BOOTSTRAP, JQUERY, SASS). ([enlace](#))
- Bachiller de la república bolivariana de Venezuela, estudiado en la U.E. Colegio María Santísima de Cabudare. ([enlace](#))
